CAN & PAIL CRUSHERS

SUPER 6M

Full cans and pail with lids on are opened, emptied (by EPA Definition) and crushed in twenty second or less. Automatic ejection available, too!

EXPLOSION PROOF

NEMA CLASS 1, DIV. 2, GROUP D

SAFE

Will not crush if doors are open!

MULTIPURPOSE CRUSHING!

These machines crush six-gallon pails and most anything that is small. Oil filter and a variety of pails and cans are all crushed by these units. When crushing one container per cycle, the Super 6M can crush 150 containers per hour. Crushing capacity of one-gallon cans is four per cycle on one level, or eight cans.

Some of our customers crush five oil filter per cycle.

CRUSHER STAND

Provide 35" of clearance for a 55-gallon drum.

LIQUID COLLECTION CAPABILITY

Liquids that are squeezed from containers are collected in a 55-gallon drum or in a tote.

RESULTS!

The **Super 6M** prepares six-gallon and smaller containers for recycling at the rate of 150-500 containers per hour! Container types and sizes ranging from pints to 6-gallons.
